

A SILENT STOMACH

When your stomach "growls" it's a sign of indigestion and a warning of trouble. Take care! After your next meal, take a little gastro-peptic tablet and you will have a "silent" stomach. You won't feel bloated, gassy, or indigestion, and you will be at all drug stores in 25c and 50c.—Advt.

COLD WANTS WORK WONDERS.

URGE GOVERNMENT CONTROL OF ALL WIRELESS OUTFITS

Secretary Daniels Points Out the Case of Germany as a Warning to the United States.

WASHINGTON, Jan. 4.—The Navy Department is determined to push the measure now in Congress providing Government control of wireless to the limit. The Department, according to a statement by Secretary Daniels today, is especially anxious that the Government purchase all stations used for commercial purposes.

"I am firmly convinced that Government control of wireless is absolutely necessary to the best interests of the nation," Daniels said. "I deem the matter most urgent. Delay only will increase the difficulties under which we are working; delay also will mean an increased outlay to the Government when the step finally is decided upon."

The Navy Secretary and others pointed out to-day what absolute control of wireless has meant to Germany and the Central Powers, "which otherwise would be completely and totally cut off from the rest of the world, except for their submarines."

RENT STRIKE GAINS FORCE DESPITE 296 EVICTION NOTICES

Tenants Defy Bronx Landlords as They Prepare for Fight in the Courts.

The Bronx rent strikers continued to defy the landlords to-day, and where the rent collector did not meet with absolute refusals to pay he met with vague promises. An agent of one of the apartment houses in which the tenants are striking admitted that but very little actual cash has been given the owners of the houses and this money has come from a few families where some one is ill and the raise of one dollar a month must be met to avoid eviction.

Two hundred and ninety-six eviction notices have been served on tenants in the Gruenstein and Mayer houses and the strikers will be in the Second Municipal Court at One Hundred and Sixty-second Street and Brook Avenue, to-morrow morning to fight the cases. A fund for legal aid has been collected and if the evictions are granted an effort will be made to prevent the City Marshals from executing them by an injunction process.

In the apartments at No. 284 to 292 Concord Avenue not a tenant has paid rent and all of the one hundred and thirty-two heads of families have accepted eviction notices. The women pick them out and they have succeeded in making the notices badges of merit in the war.

The strikers in fighting the court proceedings have asked hundreds of friends who visited them before the strike to attend Court and testify to the lack of heat and hot water in the apartments and extra police probably will be on hand to keep order. Whatever complaint there might have been of the heat before the tenants refused to pay their rent has ceased to exist for Bronx landlords are shovelling coal as never before to offset the contention of the tenants.

A mass meeting of the striking tenants will be held to-night at the Century Church on One Hundred and Sixty-sixth Street between Third and Washington Avenues. Strikers will be asked to tell of violations of the building laws and the health laws by landlords, and the facts submitted will be given to District Attorney Francis Martin.

SMALL MURDER JURY TOLD ABOUT INCENDIARY DEVICE

Expert Testifies Fire Could Have Been Timed to Start Hours After Broker Left.

OSSEBEE, N. H., Jan. 4.—The possible arrangement of an incendiary device by which the fire that destroyed the house in which Mrs. Florence A. Small was killed could have been set eight or ten hours after her husband, Frederick L. Small, left there for Boston on Sept. 28, was the subject of testimony at the trial of Small on a charge of murder to-day.

Franklin S. Piper, an electrician, replied affirmatively to a hypothetical question whether a fire could be timed and started by a combination of wires, spark plugs, a coil, an alarm clock and other articles found in the ruins of the Small cottage.

Dr. B. Frank Horne, county medical referee, testified on cross-examination that Mrs. Small's body was burned so badly it was impossible to tell whether there had been any marks of violence below the neck.

TO REGULATE GOLD INFLOW.

Federal Reserve Board Sees Danger in Large Imports.

WASHINGTON, Jan. 4.—That the time has come for banks of this country to adopt a "more adequate policy to check the dangers growing out of the continued shipment of gold to the United States" was announced to-day in a Federal Reserve Board statement.

"The whole situation as to reserves, interest rates and demands for accommodation has been such as to confirm the board in the belief, previously expressed, that the time has come for the use not only of distinct caution on the part of our banks, but also for the adoption of a more adequate policy to control the dangers growing out of the continued shipments of gold to the United States."

It was explained that the statement was in the nature of "an emphasis" of the board's previous announcement of Nov. 28 on the danger of large gold imports.

STILL FIGHTS RANGER WILL.

Artist's Sister Will Have to Reopen Contest, Despite Probate.

Mrs. Edith F. Ranger of No. 311 West Fifth Street, sister of the late artist, Henry W. Ranger, says that although the will by which her brother left his \$23,320 to purchase American paintings for public galleries was admitted to probate yesterday when she failed to press her objections before Surrogate Fowler, she will make a motion to reopen the matter.

Mrs. Ranger, who has taken her maiden name, alleges her brother was of unsound mind when he made the will setting her off. She said her attorney was in Washington yesterday and she had not expected the probate proceedings to come up until next month.

Rockefeller Agent to Go Abroad for Prisoners' Welfare League.

CHICAGO, Jan. 4.—Trevor Arnett, auditor of the University of Chicago, recently appointed financial agent of the Rockefeller Foundation Prisoners' Welfare League, will sail for Europe Saturday on the Norwegian liner Christiana from New York. He will visit the Scandinavian countries, France, Great Britain and Russia.

Second Floor, Central Building

A Hosiery Purchase by Wireless!

10,461 Pairs for Women, Children and Men At Surprisingly Low Prices, Because "Samples"

It's a long while since such an offering as this has been made.

This fine big lot of FOREIGN Hosiery has been here since before the war—the full sample collection of a noted maker. No use his holding it—couldn't make deliveries. So he decided to sell; and the only way he could order the samples sold was by wireless!

The instructions came; we bought the above large quantity—10,461 pairs, at our price. We shall sell the Hosiery as follows:

Women's Imported Stockings, 29c a Pair
Children's Imported Stockings, 19c a Pair
Men's Imported Socks, 24c a Pair

FOR WOMEN—Fancy lisle, black and colored, with self and colored embroidery. Fancy lace lisle in colors and black. Fine mercerized plain lisle in black in regular and extra sizes. Fine plain black cotton, also some with split soles. Black fleecelined and unbleached balbriggan cotton.

FOR MEN—Fancy lisle and also fine black and colored cotton and lisle. Some cotton socks with split soles.

FOR CHILDREN—Black ribbed fine cotton, also some plain. Babies' white and black cashmere long stockings and some fancy striped cotton socks.

Values? The true, regular prices would sound absurd. We shan't quote them. Enough to say that such fine qualities haven't been brought to America—and won't be—in a blue moon.

NOTE—As this is a sample lot, large in the aggregate, but containing many styles of which there are but few of a kind, we do not think it advisable to promise to fill telephone or mail orders; hence must restrict the Sale to Store purchases only.

Women's sizes mostly 2 and 9 1/2; men's sizes mostly 10 and 10 1/2; children's sizes mostly 7 and 7 1/2; babies' sizes mostly 5 and 5 1/2.

Women's and Children's Stockings, Street floor, Fulton street, Central Building. Men's socks, Street floor, East Building.

Jess Willard Trains For Big Bouts With Nuxated Iron

World's Champion reveals secret of his tremendous force, strength and power.

Low ordinary nuxated iron often increases the strength and endurance of delicate, nervous folks over 200 per cent. in two weeks' time.

NOTE.—Dr. E. Bauer, a physician who has been in both this country and Europe, has been induced to make an investigation into the secret of the great strength, power and endurance of Jess Willard, and the value of nuxated iron as a health builder.

Upon being interviewed at his apartment in a Colonial Hotel, Mr. Willard said: "Yes, I am a chemist with me to study the value of food and products as to their power to produce great strength and endurance, both of which are so necessary in the prize ring. This recommendation I have often taken, and I have particularly advocated the free use of iron by all those who wish to obtain great physical and mental power. Without it I am sure that I would never have been able to whip Jack Johnson completely and easily as I did, and while training for my bout with Frank Moran regularly took nuxated iron, and I am proud that it was a most important part of my winning so easily. I shall use for all my bouts with nuxated iron." Continuing, Dr. Bauer said, "The case of Jess Willard is only one of hundreds whom I could cite from my own personal experience which proves conclusively the building power of nuxated iron to increase strength and vitality even in the most complicated chronic conditions." He then told us a story of a man who had been nearly half a century old and asked him to give him a preliminary examination for life insurance. "I was astonished," said Dr. Bauer, "to find him with the blood pressure of a 20-year-old man, and as full of vigor, vim and energy as a young man. In fact, a man his age, the secret, he said, was nuxated iron. He had filled him with nuxated iron. At 50 he was in bad shape, at 40 he was careworn and near all in. Now at 50, after taking Nuxated Iron, a miracle of vitality and health had been achieved. With the recovery of his health, he had been able to do his work. As I have said a hundred times, nuxated iron is the greatest of all strength builders. If people would only throw away their patent medicines and take nuxated iron, they would take simple nuxated iron."

I consider that plenty of iron in my blood is the secret of my great strength, power and endurance.

Jess Willard

Says Iron is greatest of all strength builders.

I am convinced that the lives of thousands of persons might be saved who now die every year from pneumonia, grippe, consumption, kidney, liver and heart trouble, etc. The real and true cause which started these diseases were nothing more, nor less, than a weakened condition brought on by lack of iron in the blood. It is absolutely necessary to enable your blood to change food into living tissues. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking, just like I was. If you are not strong or well you can't make the following test: See how long you can walk or how far you can walk without becoming tired. Next take two five grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and I have seen dozens of nervous, run-down people who were willing all the while, double their strength and endurance and entirely get rid of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form. And this after they had in some cases been doctoring for months without obtaining any benefit. But don't take the form of reduced iron, iron acetate or tincture of iron in a form that can be easily absorbed and assimilated like nuxated iron. If you wish it to do you any good, otherwise it may prove worse than useless.

Many an athlete or prize fighter has won the day simply because he knew the secret of great strength and endurance and filled his body with iron before he went into the arena. While many another has gone to the agonizing defeat simply for the lack of iron.—E. Bauer, M. D.

NOTE.—Nuxated Iron, recommended above by Dr. Bauer, is a potent medicine, not secreted, but one which is well known to drug stores and whose iron constituents are widely prescribed by eminent physicians everywhere. Unlike the other inorganic iron products it is easily assimilated, does not irritate the stomach, makes them black, nor upset the stomach, on the contrary, it is a most potent remedy in nearly all forms of indigestion, as well as for nervous, run-down conditions. The manufacturers have such absolute confidence in Nuxated Iron that they prefer to forfeit \$100,000 to any character of fraud or increase their strength 200 per cent. or over in four weeks' time, provided they have no inorganic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed by all good druggists.—Advt.
